July 15, 2010

## FOR IMMEDIATE RELEASE

### **Nalcor and LNCC partner to deliver successful Lower Churchill procurement consultations during Expo Labrador 2010**

Happy Valley-Goose Bay, NL – Nalcor Energy recently partnered with the Labrador North Chamber of Commerce (LNCC) during the 2010 Expo Labrador Conference and Trade Exhibition. The partnership involved the arrangement of one-on-one supplier consultations between members of the business community and Nalcor Energy with respect to the proposed Lower Churchill Hydroelectric Generation Project. The entire slate of consultation sessions over a two day period (June 21-22) was booked with Nalcor's Project Procurement Team.

"Timely meetings and consultations such as the sessions held during Expo Labrador 2010 are significant steps to ensuring our members and the business community in general is prepared for the Lower Churchill Project when it is announced", said Sterling Peyton, President of the Labrador North Chamber of Commerce. "It is important for the LNCC and other stakeholder groups to recognize and applaud the proactive approach taken by Nalcor towards supplier readiness, skills development and community consultation – efforts that help place Labrador in a solid position to maximize the regional benefits of this mega-project", Mr. Peyton added.

"The LNCC remains firmly committed to the Lower Churchill hydroelectric development, and commends the work the entire Project Team has completed to date", concludes Mr. Peyton.

The Labrador North Chamber of Commerce is a not-for-profit, membership-based business association representing the interests of the Central Labrador region business community.
